TPMG NETWORK

Send Your Materials

Send your materials: provide your logo, media kit, and a company or product presentation so TPMG can build your profile and start actively selling your services.

What to Send

- Logo: a high-resolution file (PNG or vector format such as AI/EPS/SVG preferred), on a transparent or white background.
- Media kit: your company overview, key differentiators, target audience, and any approved brand imagery or product photos.
- Company or product presentation: a short deck or document describing what you offer, who it's for, and why clients should choose you.

Optional, But Helpful

- Client testimonials or case studies.
- Links to your website and social media profiles.
- A short contact name and email for TPMG's marketing team to coordinate promotion.

Where to Send It

Once your Sales Partner Agreement is signed, send your materials to your TPMG contact, or upload them through the link provided during onboarding.

Why This Matters

These materials are what TPMG uses to build your dedicated service page, feature you in newsletters and articles, and represent you accurately in pre-sale conversations. The sooner we have them, the sooner TPMG can start actively selling your services.
